SKILLS SUMMARY

Languages: Java, JavaScript (ES6+), SQL
Backend: Spring Boot, Spring Data JPA, Spring Security, RESTful APIs, JWT Authentication, Node.js, Express.js
Databases: MySQL, MongoDB, Database Schema Design
Tools: Git, GitHub, Postman
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EDUCATION

Sinhgad Institute of Technology — Pune, India
Bachelor of Engineering in Information Technology — **2023 – 2027**
CGPA: **7.01/10.0**

Bihar School Examination Board (BSEB) — Bihar, India
Higher Secondary (Class XII) — **66.7% | 2022**

Delhi Model Public School — Bihar, India
Secondary School (Class X) — **65.0% | 2020**

EXPERIENCE

Indux Technology — Pune, Maharashtra
Backend Developer Intern – Spring Boot — **Feb 16, 2026 – May 16, 2026**

- Developed backend modules using Java and Spring Boot following a structured REST API architecture.
- Built and integrated RESTful APIs for application features and handled request processing, validation, and backend data flow.
- Implemented backend authentication and authorization using Spring Security and JWT.
- Worked with Spring Data JPA and database operations for managing application data and integrating backend services.
- Used Git, GitHub, and Postman for version control, API testing, debugging, and development workflow.

PROJECTS

CivicConnect – Civic Issue Reporting & Management System — *Java, Spring Boot, MongoDB, JWT*

- Developed a Spring Boot REST API using Controller-Service-Repository architecture for civic issue reporting, department assignment, status tracking, and resolution workflows.
- Implemented JWT authentication, BCrypt password hashing, and role-based authorization for Users, Department Officers, and Admins.
- Integrated MongoDB for data management and Cloudinary for media uploads, with a separate Python FastAPI + YOLO service for image-based civic issue detection.

Hotel Online Booking System — *React.js, Spring Boot, MySQL, JWT, Cloudinary*

- Built a full-stack hotel booking system using Spring Boot REST APIs and MySQL, supporting room search, availability, booking, and booking history.
- Implemented JWT authentication and role-based Admin/User authorization with secure room CRUD and booking management using JPA/Hibernate.
- Integrated Cloudinary for room image uploads and connected the React frontend with backend APIs using Axios and React Router.

Veyora – Full Stack E-Commerce Platform — *MongoDB, Express.js, React.js, Node.js, Redux Toolkit*

- Developed product listing, shopping cart, inventory management, and order tracking features for a full-stack e-commerce platform.
- Built Admin Dashboard modules for inventory management and order tracking.
- Implemented secure authentication using BCrypt password hashing and JWT-based authorization.

ACHIEVEMENTS

- **Smart India Hackathon (SIH) 2025:** Participated in the hackathon and collaborated with a team to develop a technology-based solution.
- **NSS – Photography Head:** Managed event photography and coordinated visual coverage of college activities.
- **LeetCode:** Regularly practice Data Structures and Algorithms through coding problems.

CERTIFICATIONS

Infosys Springboard: Java Programming Certification | JavaScript Programming Certification
Udemy: Full Stack SDE Course – DSA, Java SB, React, SQL, AI & Project
Infosys Springboard: HTML5, CSS3 & TypeScript Programming Certifications
Oracle University: Data Science Foundation Certification

HOBBIES

Nature Photography | Listening to Music | Night Drives
